Greenhouse Gas (GHG) Emissions and Removals

National GHG Emission and Sinks: 1990-2022

Explore the key findings and data from the <u>latest national GHG emissions and sink trends report</u>.

Climate Resources for States

Explore new state GHG data and resources » for climate action.

Greenhouse Gas Reporting Program

Explore GHG emissions from the largest sources and sectors through Data Highlights » and map app, FLIGHT »

Convert emissions or energy data into concrete terms

Translate abstract GHG measurements into concrete terms that are easy to understand.

Explore the GHG Equivalencies Calculator »

1 2 3 4

What are the main GHGs?

Overview of Greenhouse Gases »

Learn about the most important GHGs and opportunities for reducing emissions.

Where do GHGs come from?

Sources of Greenhouse Gases »

See the human activities that add GHGs to our atmosphere and options to cut emissions.

Global

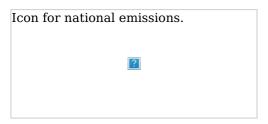

Find out more about global greenhouse gas emissions and trends and capacity building for national GHG inventories.

Organization

Learn about corporate GHG management and use the Emission Factors Hub and Corporate GHG Emission Calculator.

National

Review *EPA's Inventory of U.S. Greenhouse Gas Emissions and Sinks* report and explore gridded methane inventory data.

Facility

Explore facility-level data collected through EPA's GHG Reporting Program.

State and Tribal

Explore EPA's state and tribal greenhouse gas data and explore resources for states and tribes to develop inventories.

Individual

Use the <u>Individual Emissions Calculator</u> to estimate your carbon footprint.
